

cladding systems

presents:

RockMetabio

Is a new entry in the **Piz system** family. This panel comes after long term testing in our research and develop lab. **PIZ Metabio** is available in the two different systems : PIZ standard 54 and PIZ H89. Thank you to the new insulation layer based on a high density wool rock board. This panel add more important features to our cladding system:

- **High rate of fire system resistance Euroclass A1**
- **Good sound proof behavior 13 db**
- **High breathability of the system**
- **Excellent environmental compatibility**
- **Good thermal insulation $\lambda=0.036$ W/mk**
